# ABBOTSFORD

Abbotsford, BC, presents a compelling investment opportunity with its thriving economic, social, and housing prospects. Economically, the city benefits from a robust agricultural sector and burgeoning industries in technology and manufacturing, creating a dynamic environment for future growth. Socially, Abbotsford is known for its vibrant, diverse community, excellent recreational and retail amenities, and cultural events that enhance quality of life. Notably, the city is home to Abbotsford International Airport, which enhances connectivity and accessibility, making it a strategic location for multi-family housing developments. Housing in Abbotsford is more affordable compared to neighboring Vancouver, making it an attractive option for families and professionals seeking a balance between urban amenities and suburban tranquility.

Abbotsford Centre Mall is positioned in the “Historic Downtown” Neighbourhood, which is set apart from other neighbourhoods in Abbotsford by its remnants of the past, including historic buildings and streets used by horse carriage and rail, before the arrival of vehicles. Historic Downtown is a key commercial node in the city – it has a unique identity, sought after retailers and food operators pull customers and residents to the neighbourhood. Half a block from where Essendene and Montrose Avenues intersect – which is the centre of the core retail area – Abbotsford Centre Mall has excellent connectivity, with nearly all retail areas being within convenient walking distance to the site.

## SUMMARY

This Official Community Plan (OCP), commonly referred to as Abbotsforward, identifies the area in which the site is located as “Historic Downtown” – an Urban Centre within Abbotsford’s Urban Core, which is where redevelopment and intensification of uses are focused. More broadly, 75% of new residential growth will be directed to existing built up areas of the City, the majority of which will be in the Urban Core. Urban Centres like Historic Downtown are secondary to the City Centre in terms of intensity and scale. However, in addition to serving surrounding neighbourhoods, they also have city-wide draw and function. Historic Downtown in particular has distinct character for community gatherings, employment, and destination amenities. Redevelopment is designed to support higher residential density in mixed use buildings to accommodate growing population base that can be supported by this strong commercial core.

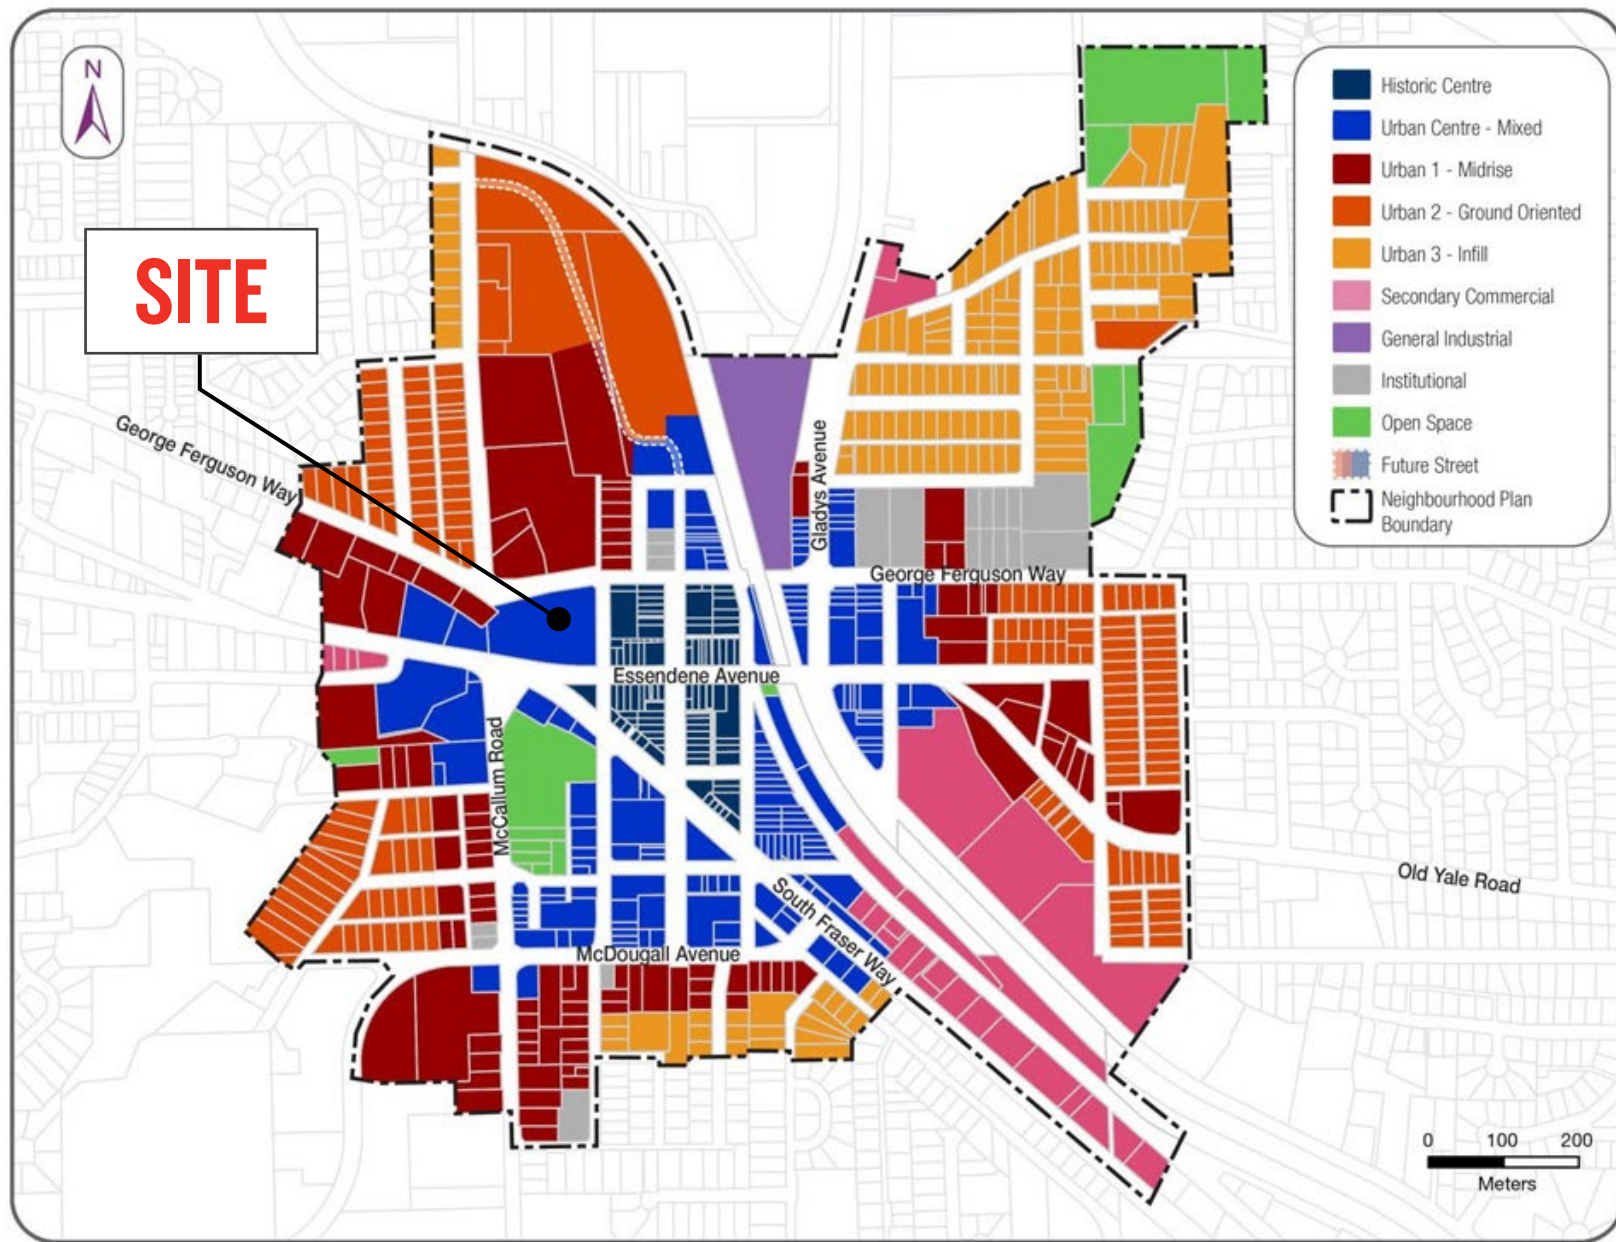

Further information on the OCP/ Historic Downtown Neighbourhood plan can be found on the Abbotsford City website here:

### OCP/ Historic Downtown Neighbourhood
